

of the plan there in terms of public use. It is a lot like Indian Cave. It is kind of centralized in an area but certainly has a total public use of it. I would be more than willing to do this and I wanted to today but because of some really time commitments over the past four or five days, I did not put the package together in terms of this particular project but I will supply those for you, Senator Bereuter.

SENATOR BEREUTER: What I am asking is this, will it be designated or do you have in there standing whether it will be designated as a state park or a state recreational area or some other official designation?

SENATOR F. LEWIS: It is going to be designated, and I got the information right here and let me try to get through it here, it is a state recreational area for a state wayside area and a state special use area.

SENATOR BEREUTER: All three?

SENATOR F. LEWIS: Yes. It will meet the criteria for all three.

SENATOR BEREUTER: I see.

SENATOR F. LEWIS: And that information was supplied to me by Mr. Robert Cunningham, a former mayor of Omaha, and a member of the Game Commission.

SENATOR BEREUTER: Thank you. I have a further question. One of the things I was interested in at the presentation before the Appropriations Committee was whether or not this would be a facility that would generate additional park improvement funds for that park and for additional state areas in the state. Do you have any kind of understanding from them what their feeling will be concerning that question?

SENATOR F. LEWIS: I have that somewhere, I believe, Senator Bereuter, and I will get that to you as soon as I get through my notes. I have a series of pieces of information here.

SENATOR BEREUTER: I would like something on the record on that matter, if possible, Senator Lewis, before we proceed too far. Thank you.

SENATOR F. LEWIS: I will sure try.

PRESIDENT: Senator Murphy.

SENATOR MURPHY: Senator Lewis, it occurs to me that you mention other facilities outstate, that last year I believe Senator Koch very successfully handled legislation where we bought Gilligan's Wilderness Island or whatever it was in that vicinity and early this year we bought a lake up in Senator Newell's backyard for the entertainment of area residents. This really is a part of Omaha's river-front development program, is it not?

SENATOR F. LEWIS: Certainly it ties in with that whole project and we would hope (interruption).
